ROYAL GLASS Collection
“Grace” & “Splendor”

TOP TILE

Embracing elegance and prestige – Royal Glass embodies an opulent beauty, celebrating the owner's success and prosperity.

- *Royal Glass is a culmination of the finest qualities of Royal tiles, flawlessly replicating the beauty of natural stones.*

- *In comparison with other ceramic tiles on the market, Royal Glass's unique design and color body allow for a solid structure and great breaking strength. Additionally, it also offers high consistency, long-term durability and an everlasting smooth surface.*

- *The combination of cutting-edge full-granila technology and multi-layer glazing makes Royal Glass practically transparent, resulting in a shiny, ripple-free surface.*

- *The hyper-realistic 3D effect gives each tile depth and realism, allowing a distinct light reflection and bringing every living space to life.*

> Royal Glass possesses outstanding technical properties, making it the perfect choice for those who seek luxury and modernity when designing their dream homes.

Feel the glossiness that is

CLOSE TO PERFECTION

up to 100%

Royal Glass tile offers the closest experience to perfect glossiness in polished porcelain tile, , which helps to uniquely reflect light and create an opulent, high-end beauty.

“ A TRANSPARENT
MIRROR-LIKE SHINY SURFACE ”

• The transparent, ripple-free surface of Royal Glass feels smooth to the touch. It brilliantly displays stone vein patterns and enhances color effects, especially in designs with strong and dark tones.
• The intricate patterns perfectly recreate natural stones, imbuing the living space with sophistication and class.

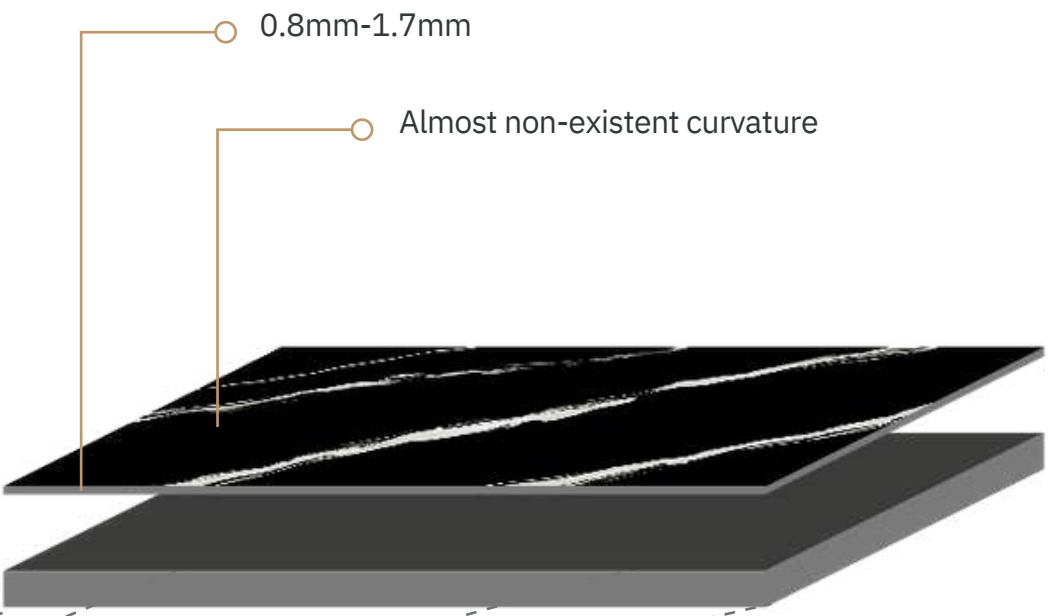

• Royal Glass has a very thick glazing, even after polishing, ranging from 0.8mm to 1.7mm, which is significantly thicker than standard glossy glazing (0.3 mm). This helps increase durability and keep the tile surface glossy and new.

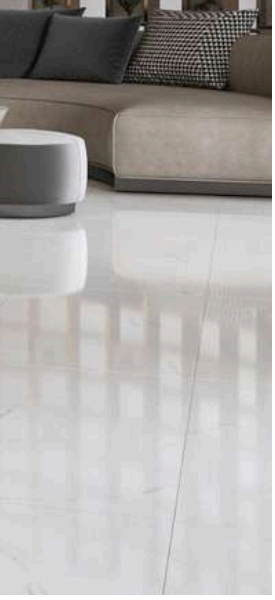

• The almost non-existent curvature, with no deformation or bending as with ordinary glazing, enhances the tiles' aesthetic and increases ease of installation.
